

ECHO LAMP MEDIUM

A collaboration with Paris-based design house Maison Intègre, the Echo Lamp is a sculptural fixture handmade from recycled metals by artisans in Burkina Faso. Two elements, light and bronze, engage in a relationship to one another. Two parts, a light source and a reflector, suggest intimacy as light bounces from one piece to the other in a soft, reflected glow. Each Echo Lamp is unique due to its handmade nature. Shapes and shades vary slightly. Originally commissioned by 'Wallpaper*' for the 2018 exhibition Love in Milan. Available in Large, Medium or Small.
