

DOUBLE PIVOT CHANDELIER

Our largest fixture at just under ten feet long, the Double Pivot Chandelier features ten shades held aloft through a simple armature of cords and rods. The Double Pivot Chandelier is right at home in lobbies, entryways, and boardrooms. A tensegrity structure, the fixture's cloth-covered electrical cords resist in tension the compression of the steel rods. Each chandelier requires two junction boxes, is built to order in our Los Angeles studio, and breaks down for easy shipping.

CARE | Clean with soft microfiber cloth which can be dampened if necessary.
