

PEARL 4

Pearl 4 is our exploration of the half-square, half-circle Lamé Curve, a mathematical formula behind mid-century designer Piet Hein's super egg and superellipse. This pleasing shape is mathematical with its plotted arcs yet organic in its roundness and parallels to natural forms. Made of blown white glass, Pearl 4 is a new take on the classical globe or puck lamp typology. ADA compliant and outdoor rated.

A geometric yet organic matte white glass globe is paired with a spun metal canopy with an integrated pull chain switch. When the brass pull is engaged, the fixture emits a soft, diffused glow.
