

## SLIDE DROP PENDANT 10

The Slide Drop Pendant 10 comes with options for standard drop and telescoping tubes that can be specified to achieve a desired fixture elevation.

When ordering your Slide Drop Pendant drop tube, please refer to the line drawing and table showing the various overall fixture heights with our standard and telescoping drop tubes.

Hanging heights are a matter of personal preference but we like hanging our Slide Drop Pendants so that the bottom of the shade is 24-32" above tables and 30-36" above counter-tops.

Custom size and extra long drop and telescoping tubes are available upon request.
